No part of this guide may be reproduced or transmitted in any form or by any means (electronic, mechanical, photocopying, recording, or otherwise), for any purpose, without the prior written permission of Schneider Electric.

Schneider Electric does not grant any right or license for commercial use of the guide or its content, except for a non-exclusive and personal license to consult it on an "as is" basis. Schneider Electric products and equipment should be installed, operated, serviced, and maintained only by qualified personnel.

As standards, specifications, and designs change from time to time, information contained in this guide may be subject to change without notice.

To the extent permitted by applicable law, no responsibility or liability is assumed by Schneider Electric and its subsidiaries for any errors or omissions in the informational content of this material or consequences arising out of or resulting from the use of the information contained herein.

# Overview

*The State Alarm (STALM) block provides state alarming for event changes detected by Intelligent Field Devices and for control schemes requiring state alarming capabilities.*

The STALM block provides the state alarm to indicate an event change received from an Intelligent Field Device. Upon receiving the state input from the device, the block generates alarm and return-to-normal messages which are user-definable or, in the case of the Hydrostatic Tank Gauge, can be imported from the local ECB13 supporting the HTG. Bad alarm detection and related message output are also supported.

Alarm detection and/or alarm messages can be inhibited.

## Standard Features

- Auto/Manual modes
- Alarm message generation
- Alarm acknowledge support
- Bad input status detection and handling
- Alarm detection and/or alarm message inhibit

 **WARNING:** This product can expose you to chemicals including lead and lead compounds, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to [www.p65warnings.ca.gov/](http://www.p65warnings.ca.gov/).
